What Every Student Should Know About

Your guide to staying smart, safe, and professional in the digital world

WHAT IS DIGITAL LITERACY?

Digital literacy is the ability to **find, evaluate, use, and share information responsibly** using digital tools and the internet. It goes far beyond knowing how to use a phone or laptop — it includes thinking critically about what you read online, **protecting your personal data**, communicating professionally, and understanding how your digital actions leave a permanent footprint.

Safe Internet Practices

- Use strong, unique passwords for every account
- Never share OTPs or passwords with anyone
- Always check the URL before entering personal details
- Avoid public Wi-Fi for banking or college

Professional Online Presence

- Build a LinkedIn and GitHub profile from Year 1
- Use your real name and a professional photo
- Never post content you wouldn't show an employer
- Your digital footprint follows you — build it

Email Etiquette Essentials

- Always write a clear, specific subject line
- Address professors as "Dear Prof. [Name]"
- Keep emails short, polite, and to the point
- Proofread before hitting send — always
- Use your college email for official

portals

- Think before you click — phishing links look real
- Enable two-factor authentication wherever possible

well

- Contribute to open source or share your projects
- Keep all profiles updated with current skills

communication

- Sign off with your name, reg no., and branch
